SUBJECT OF EXAMINATION: THIS IS A TWO-PART EXAMINATION: The written test will be designed to test for knowledge, skills and/or abilities in the following areas:

Coding/decoding information

These questions test for the ability to follow a set of coding rules. Some questions will require you to code information by converting certain information into letters or numbers. Other questions will require you to decode information by determining if the information that has already been converted into letters or numbers is correct. Complete directions will be provided; no previous knowledge of or training in any coding system is required.

Name and number checking

These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. You will be instructed to mark your answers according to a designated code provided in the directions.

Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

Following directions (maps)

These questions test your ability to follow physical/geographic directions using street maps or building maps. You will have to read and understand a set of directions and then use them on a simple map.

Retaining and comprehending spoken information from calls for emergency services

These questions test for your ability to retain specific information that is heard in calls for emergency service, such as a street address, or to comprehend spoken information from emergency service calls, such as determining the location of a site in relation to landmarks. Simulated 911 calls will be played on audio CD. Immediately following each call, candidates are given audio instructions identifying which questions they are to answer within the test booklet. The questions that candidates are directed to answer for each simulated call will not be in sequential order. Candidates will need to retain and comprehend the information and instruction provided in this portion of the test to respond appropriately to the questions asked and to determine which questions to answer. The time allotted to answer these questions will be limited. At the end of each answer period, the CD will automatically play the next call. Note paper will be provided. Candidates will be permitted to take notes and to refer to them when answering the questions.

TEST GUIDE: The New York State Department of Civil Service has not prepared a test guide for this examination. However, candidates may find information in the publication 'General Guide to Written Tests' helpful in preparing for this test.
